2012

Value creation

2009

Ownership and commitment

2013

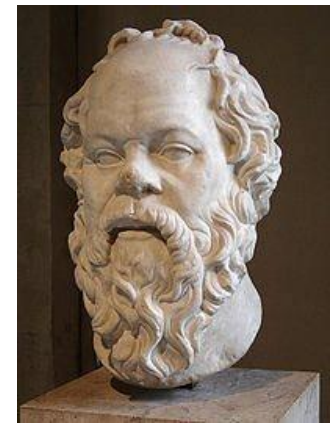

Social Cohesion and co-creation

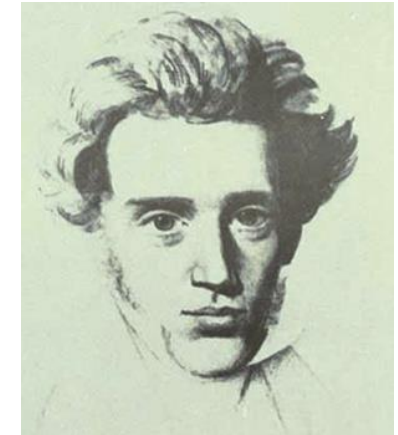

Old news.....

Midwife idea: Helps others bring their thoughts to the world, their being to full expression. (Socrates) – *Municipality?*

"The main thing is always that a human being in relation to his own life is not his uncle but his father" (S. Kierkegaard) – *Responsibility?*

"If a person possesses as much as just a notable amount of common sense and life experience, his own way of adjusting to life is the best. Not because it's necessarily is the best way, but because it's his own." (J.S. Mill) – *Diversity?*

We must take it seriously and see it as rewarding that others think and act differently - we can learn something and become smarter – *Innovation?*

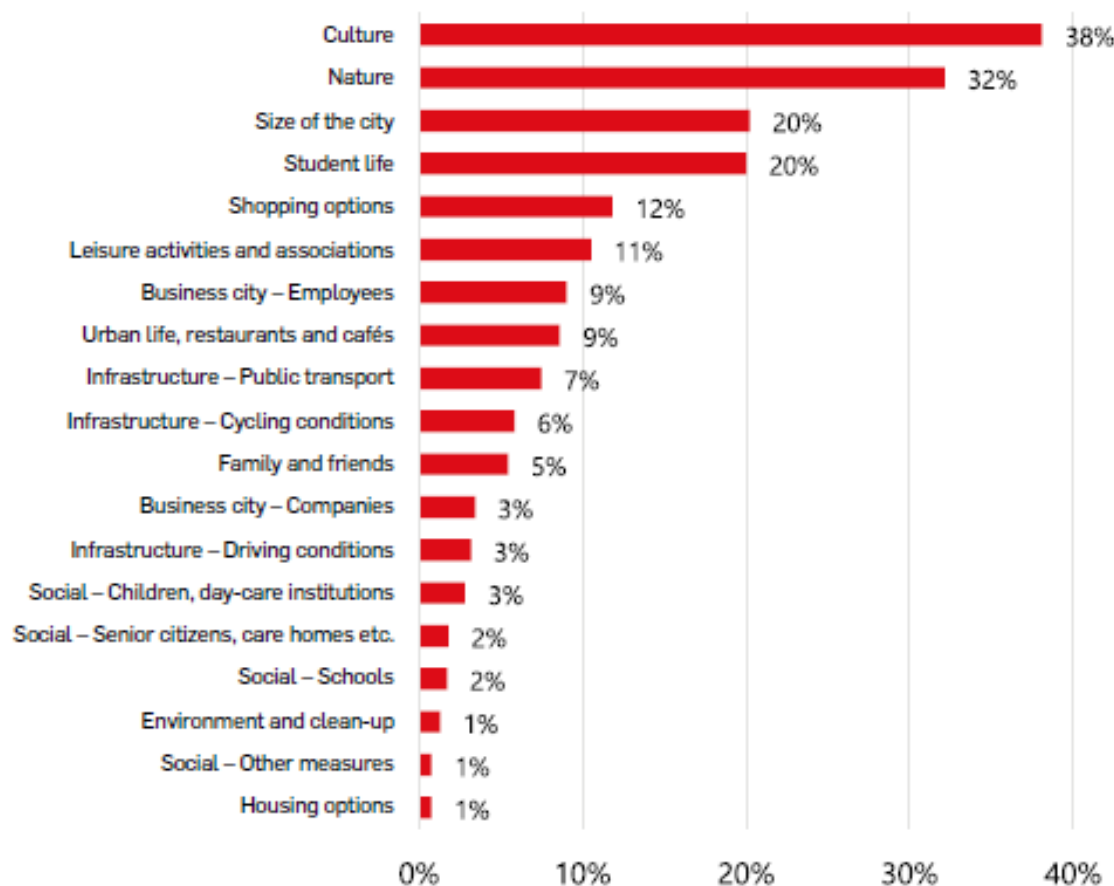

Culture brings people together, but also respects diversity
(Photo taken Monday at 1 pm)

AARHUS – A DEVELOPING CITY

In connection with the stated goal, that Aarhus should be a great city for all, an Epinion survey has been conducted, which shows that culture and nature are the things that citizens of Aarhus highlight when asked:

"What in particular makes Aarhus a great city for you?"

The future is based on what we have learned

Principle in city development:
“City life before urban spaces and urban spaces before buildings”

Cultural entrepreneurs, artist etc. plays a keyrole in the developent og the city district Aarhus K ("K" = Culture)

The future is based on what we have learned

The aim is still to be a "midwife", not to rule or control.

To have a place full of diversity, social responsibility and innovation.

Thank you for your attention

Lars Davidsen
